

Rubber Fab's

BIOLOGICAL INDICATOR GASKET

Rubber Fab

a Garlock Hygienic Technologies company

The Biological Indicator Gasket

Rubber Fab is proud to introduce a new product that enables the use of a **self contained biological indicator** in sanitary process lines. This unique Rubber Fab Smart Gasket® permits either top loading or inline positioning of an **EZTest® self contained biological indicator and/or a temperature probe**.

The great advantage of a **self contained biological indicator** over the traditional spore strip in glassine is **the time saved** when confirming spore kill. **Results are easily obtained in only 24 hours** (versus the five to seven days required with a spore strip) **and without problematic laboratory transfer**.

You can feel secure knowing that the **biological indicator** will not be lost down stream in the process. The fail-safe Rubber Fab Smart Gasket holds the indicator in place for **easy retrieval**. Available for 3/4", 1.0", 1.5" and 2.0" Sanitary, Tri-Clamp process lines.

Meets High Pharmaceutical Standards Biological Indicator Gasket

- U.S. Pharmacopeia Class VI Certification
- Cytotoxicity Criteria
- CFR Title 21 Section 177.2600
- Traceability: Lot and Batch
- Certification: Lot and Batch
- ASME-BPE Standards
- USDA Standards
- 3-A Sanitary Standards
- Current Good Manufacturing Practices (CGMP)
- Metal Detectable Elastomers available
- Animal Derived Ingredient Free

EZTest®

- U.S. Pharmacopeia
- ISO 11138
- European Norm 866

Additional technical and usage information about the EZTest® biological indicator and related testing products is available upon request.

Validation of Steam Systems

- Fermenters
- Pharmaceutical Tanks
- Sanitary Inline Pipe
- Pharmaceutical Hose

Smart Gasket Technology

The Biological Indicator Gasket is also available with one (1) Smart Gasket® Thermocouple Port. See Rubber Fab's Smart Gasket literature on our website for more information on Rubber Fab's other inline system validation products.
