

Rubber Fab's

GAUGE GUARD PROTECTORS

Protects Expensive, Fragile Gauge Diaphragms and Other Similar Instruments from Damage During Calibration, Routine Maintenance and During Autoclave Procedures.

Combine the Gauge Guard Protector with a quality Rubber Fab Gauge Guard Isolator Gasket to achieve complete diaphragm protection. A necessary and cost effective step in assuring maximum service life and accurate results from your instruments and gauges.

- 3/4", 1", 1-1/2" and 2" Sizes Available
- Manufactured using U.S.P. Class VI Platinum Cured Silicone and 316SS

| SIZE | PART NUMBER |
|------------|------------------|
| 3/4" | 42GGP-PX-075 |
| 1", 1-1/2" | 40GGP-PX-100/150 |
| 2" | 40GGP-PX-200 |

Caution

Do Not Push Diaphragm with Fingers or Damage to Gauge Can Result and Gauge Manufacturer Warranty Could be Voided.

Rubber Fab Gauge Guard Protectors are specially designed to snap onto a sanitary Tri-Clamp® connection, protecting the ferrule face from damage.
