

Rubber Fab's

# LASER ENGRAVED GASKETS

**Rubber Fab**

a Garlock Hygienic Technologies company

## Laser Engraved Hygienic Seals

- Laser Engraved Hygienic Seals, Screens and Orifice Plates insure permanent batch and/or lot traceability.
- Engraved compound information can be used to replace color dot compound code.
- Laser engraving available on: Buna, EPDM, Silicone, FKM, PTFE, Tuf-Steel®, Tuf-Flex®, Orifice Plates and Screens
- Laser engraving available on hygienic seals from 1/2" through 4.0" sizes.
- Engraving will remain readable throughout the seal's service life.
- Special application markings can be engraved on seal at customer's request.
- Consult factory for limitations on etching space and pricing.
- Procedure usually adds one day to ship time, depending on quantity.
- Metal Detectable Elastomers available.
- Animal Derived Ingredient Free.

© Torque-Rite, Tuf-Steel, Tuf-Flex and ADI Free are registered trademarks of Rubber Fab Technologies Group.

Torque-Rite: United States Patent Number 6,082,941.

Rubber Fab's Metal Detectable United States Patent Number 7,390,580

\* Buna in not an ADI Free elastomer.
