

Wash Down Spray Nozzle

Rubber Fab's Wash Down Spray Nozzle is extremely robust and has a long service life due to its high-quality brass/stainless steel design. Additionally, it is protected against shock, heat and cold and has a rubber protection against any damage from caustic solutions and acids. The Wash Down Spray Nozzle helps to save considerable water and energy costs, which, along with its chemical-free cleaning capability, contributes to the protection of the environment. The flow can be adjusted from a fine spray to a concentrated jet, making the spray nozzle the right choice for a careful and efficient cleaning for nearly any professional application.

APPLICATIONS

- Food Processing
- Beverage Processing
- Pharmaceutical Application
- Chemical Applications

FEATURES

- Cleans carefully and ecologically harmless
- Robust and with a long service life
- Resistant to caustic solutions and acids
- Shock-, heat- and cold-proof
- Adjustable water jet
- Self closing
- Can be locked open with trigger lock tab

AVAILABLE HOSE CONNECTIONS

- 1/2" Male NPT x 1/2" Hose Barb
- 1/2" Male NPT x 3/4" Hose Barb
- 1/2" Male NPT x 1" Hose Barb

SPECIFICATIONS

- Working pressure up to 25 bar/ 363 psi
- Water temperature max. +50°C/ +122°F
- Flow rate of water 25 l/minute at 5 bar/72 psi
- Internal thread 1/2" Female NPT
