Rubber Fab's

# LOCK & LABEL

## Providing Sanitary System Safety, Security and Identification

- When properly installed, cannot be opened and reduces risk of accidental steam or product release.
- Versatile, tamper-resistant, tamper-evident seal for a multitude of applications.
- Sanitary clamp connections, instrumentation, meters, tanks, drums, valves and much more!
- FDA Polysulfone with stainless steel wire.
- Sterilize via autoclave, steam, ethylene oxide, gamma & electron beam radiation.
- Stamped with consecutive numbering system for identification.
- Color coded for identification
- Choose from 5 colors: blue, green, red, yellow and white.
- Wire cutters required for removal

## Works With Most Hinge Clamps

Single Pin

Smart Clamp™

Double Pin

Non-Metallic

Gold Spot
