## Information - 01 - 2019 - Product Selection Guide

Dear valued Business Partner,

with this document we would like to inform you that our "*Product Selection Guide*" is now available for you! In this selection guide you will find most important details about the standard materials provided by Rubber Fab. It contains e.g. details about available certifications, temperature properties and suitable applications.

This selection guide is rather meant for your internal source within your company than for communication to end-users. Of course you and your team can use it during customer visits to provide a quick overview.

Please share within your company with whom it may concern!

Best regards,

Dominik Wiese  
Area Sales Manager Europe  
Rubber Fab
