Information - 02 - 2020 – Survey Smart Gasket® DIN/ISO demand

Dear Valued Partner,

Rubber Fab's Smart Gasket® is available in ASME BPE sizes from ½" to 4" and available in 1-4 ports versions in Silicone, EPDM and FKM material.

We want to make sure that we meet market requirements and therefore we seek for your cooperation in defining Smart Gasket® dimensions that would be important for your business and region, but are not yet part of our standard range.

Please discuss within your team and fill the EXCEL file attached to this information to the best of your knowledge and return to dwiese@rubberfab.com by April 17th.

Smart Gasket® (<https://rubberfab.com/products/sanitary-gaskets/specialty-gaskets/smart-gasket/>) is well proven when validating sterility in a high-purity pharmaceutical system when obtaining thermal mapping information.

Best regards,

Dominik Wiese
Rubber Fab – Area Sales Manager
